

For Healthier Breathing

SMS Technology for Particle | Chemical | Odor and Microbe Filtration

Modles:
AM100 (A pack of three)

A woman with long brown hair, wearing a white Airgle Face Mask (AM100) and a black sleeveless top, is shown from the chest up. She is looking towards the camera with a slight smile. Her right hand is resting on her left shoulder. The background is a solid light blue color.

AM100

Product Overview

Introducing the next generation of air purifying technology, the Airgle Face Mask (AM100) is an engineering marvel. The mask is equipped with SMS (spun-bond/meltblown/spun-bond) technology to provide superior protection against particles, and bacteria. Experience pure, comfortable mobility with the Airgle Face Mask.

Folding design

This inspired mask is designed to impede even the finest of particles from penetrating your body. Its specialized form also prevents eyeglasses from blurring due to uneven temperatures, and reduces pressure on the nose.

Stylish, comfortable, effective.

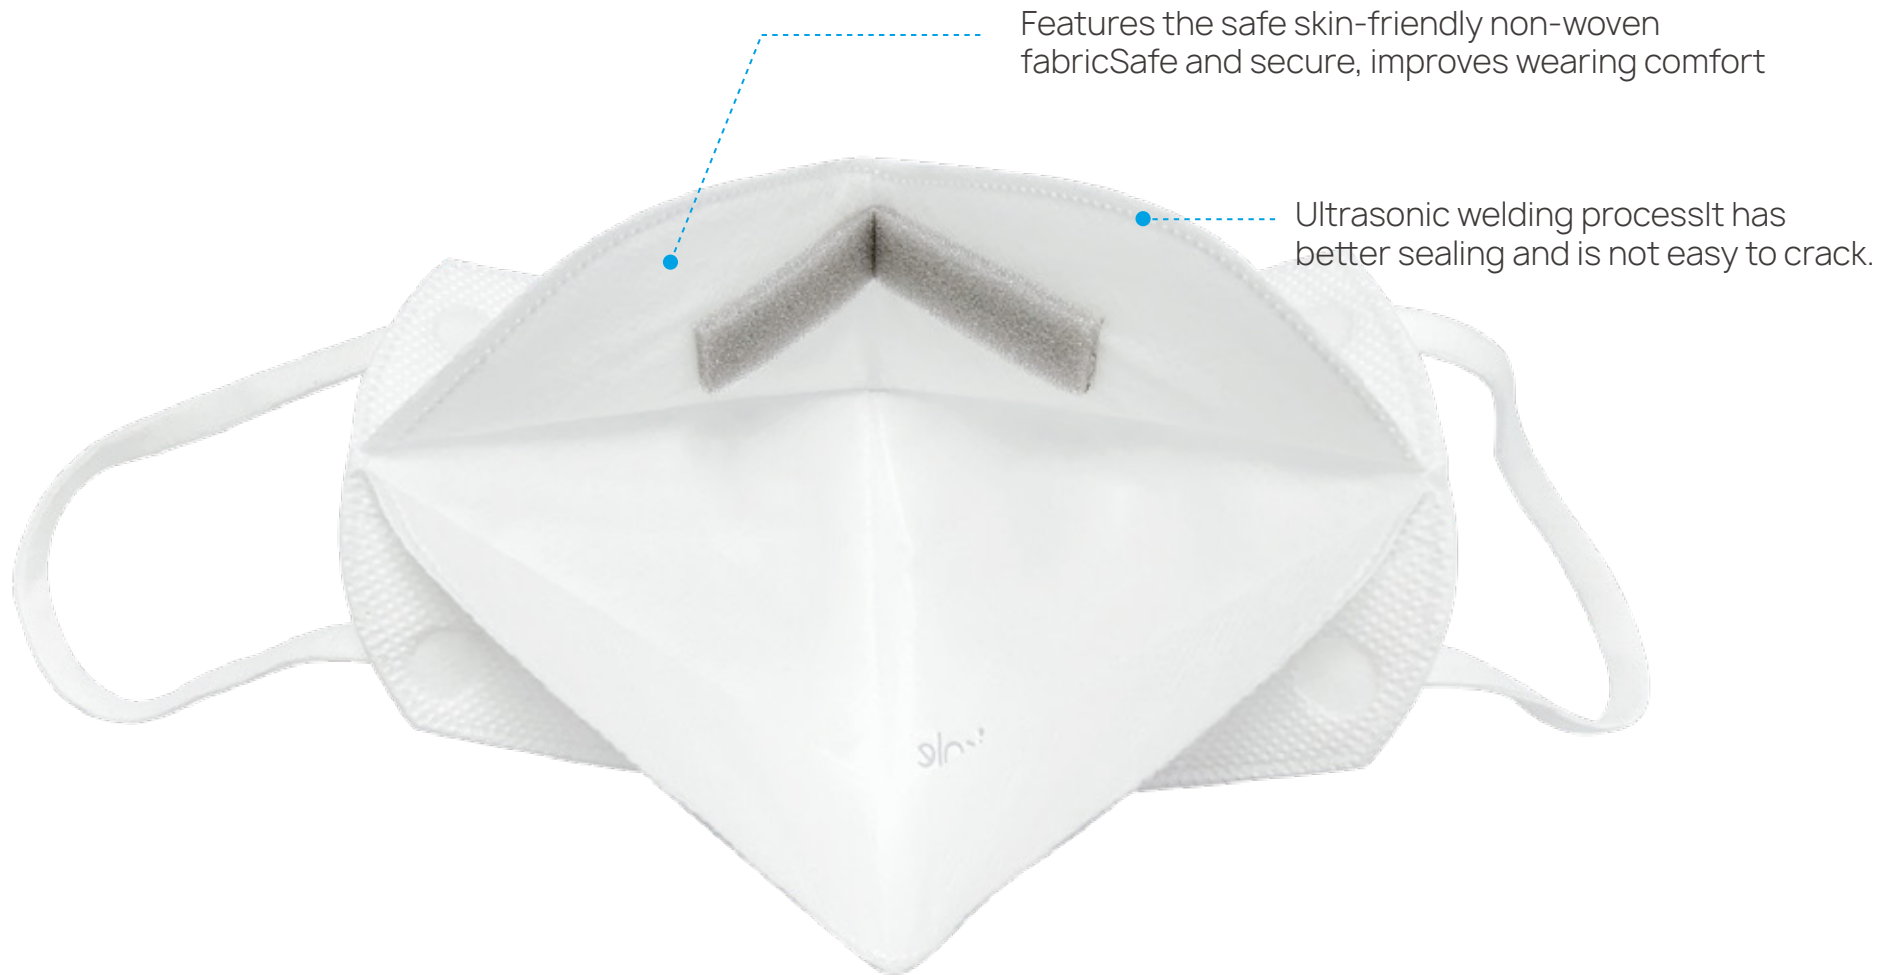

Self-Adjusts for Personalized Comfort

The face mask strap is made of soft and flexible spandex material.

Environmentally friendly technology

The memory nose clip can be adjusted, and ensure the mask is tight.

A pack of three

The packaging is polished, simple and functional. Our easy to carry green bag with zipper ensures safe storage for your mask.
