Precisely Pure

# Multi-Layer Protection

SMS Technology for Particle | Chemical | Odor and Microbe Filtration

Modles:  
AM120 (Black) / AM120 (White)

# AM120

## Product Overview

The Airgle Face Mask represents a major leap in mask design and the development of new technology. The FaceMask is hand-tailored in Ergonomic Design and is equipped with SMS (spunbond/meltblown/spunbond) technology. The result is a mask that enables the wearer to feel more comfortable and less constricted without compromising the efficiency and effectiveness of the mask. The Airgle Face Mask provides superior protection for PM 2.5 particles, and bacteria in air pollution.

# Scientific Conception, Hand Sewn Manufacturing

Our masks are manually sewn using innovative ergonomic principles. This inspired mask is designed to impede even the finest of particles from penetrating your body. Its specialized form also prevents eyeglasses from blurring due to uneven temperatures, and reduces pressure on the nose. Stylish, comfortable, effective.

# Self-Adjusts for Personalized Comfort

The face mask strap is made of soft and flexible spandex material. Adjust the length and tightness to your degree of comfort and enjoy the satisfying experience.

# Environmentally Friendly For Healthier Breathing

The outer layer of the mask is reusable, and the interior is made of air mesh fabric for easy ventilation. Additionally, the inner sides of the filter are fixed by Velcro and are easily replaceable.

The exterior is made of air mesh fabric for easy ventilation

# Safe Filtration With High Efficiency and Care

The internal changeable filter is dense and fine, while the inner layer is smooth and sturdy in form. The filter cotton adopts a new process of filtration technology, which sterilizes and decontaminates more effectively.

# Antibacterial and Environmentally Friendly With Individual Packaging

The packaging is polished, simple and functional. Our easy to carry green bag with zipper ensures safe storage for your mask.

# Breathe Effortlessly

PM2.5

Bacteria

Haze

Pollen

Odors

Dust

## How to Wear?

1. Clean your hands before taking out the face mask.
2. The inner sides of the filter are fixed by Velcro and are easily replaceable.
3. Adjust the length and tightness of the face mask strap to your degree of comfort.
4. To put the filter in position simply adjust the built-in wire.
